

EFFORT TO EVANGELIZE JEWISH PEOPLE

Philadelphia, May 20.—An effort to evangelize Jewish people in Newark, N. J., Baltimore, Md., Brooklyn, N. Y., and this city is being made by the Presbyterian Board of Home Missions, according to the annual report read here today before the Presbyterian General Assembly.

The report, which was presented by Secretary H. N. Morse, said the year closed with "much financial perplexity, but great spiritual advance." The board, it was said, projected a budget on the basis of a certain anticipation through the New Era Movement, "which the facts have not justified." Total receipts, exclusive of legacies and applicable to current work were paid said to be \$978,622 and expenditures for the year were \$1,219,222, leaving a net deficit of \$240,600 which, added to the debt of the board faced on January 1, 1920, makes the total debt \$479,322.

"Our churches everywhere, however," says the report, "seem to have caught the spirit of progress and the year has been one of unusual fruitfulness." The American mission work is being carried on, it was said, in 1,451 churches by 299 missionaries and only in the "after, but in lumber camps, among the Indians, in Alaska and among Spanish speaking people in the southwest. In addition considerable attention is being paid to promoting the well-being of rural churches and of taking care of immigrants.

WAUREGAN

The operatives of the Wauregan company have been for some three years insured in a leading life insurance company of Hartford. The Wauregan company was one of the first to issue insurance certificates to its employees. In the three years which the insurance has been in force a number of families have had a shock given them for a goodly amount. Such having been a death in the family. The company issued these life certificates as an expression of good will and their appreciation of the loyalty of their faithful employees, so that those dependent upon them may be provided for in their greatest need. This insurance is issued and paid for by the company, there being no expense whatsoever to an employee. It does not in any way conflict with the Connecticut workmen's compensation law but is in addition thereto. The amount of the certificate is governed by the length of service rendered. During the epidemic of influenza a number of families have been called upon to mourn the loss of one or more members. They have also received great consolation from the insurance money received.

He emphasized the need of production and co-operation. He stated that the heads of the several departments could do a great deal in overcoming the perplexi-
